Subject: Achievement of Permit Conditions for Expansion of Disturbed Area,  
Savage Services Corporation, Savage Coal Terminal, C/007/0022, Task ID  
#2613, Outgoing File

Dear Mr. Jensen:

The disturbed area expansion at Savage Loadout was approved with five conditions (letter from the Division dated September 13, 2006). Since that time, the Division has received revisions of the following: Plate 3-2 (Facility Map), Figure 7-6 (Location of irrigation canals), and soil Plates 8-1, 8-2, and 8-3. Soils analysis has been included in Appendix 8-3. Flagging and salvage of the topsoil was accomplished as requested. Topsoil volume and pile configuration maps have been included in Appendix 8-1. Topsoil Mass Balance Table 8-9 reflects as-built volumes. A description of the amendments applied to the topsoil and subsoil piles has been recorded in Chapter 8 of the Mining and Reclamation Plan (MRP).

Thank you for this information. The five conditions for expansion of the disturbed area have been met. A stamped, "Incorporated" copy is being returned to Dan Guy for your copy of the MRP. Please call us to arrange a time to incorporate this information. If you have questions, please call me at (801) 538-5268 or Priscilla Burton at (435) 613-1146, Ext. 207.

Sincerely,

Pamela Grubaugh-Littig  
Permit Supervisor
